

Upmatic® PAPERflex

english

Upmatic PAPERflex = fully automatic filling and closing machine for PAPERflex bags from 0,5 bis 5 kg filled weight. For all bulk and granular products of the food and non-food industries.

The Upmatic PAPERflex is at the forefront of our innovative packing concept for fruit and vegetables such as apples, pears, potatoes, carrots and onions, etc. Unique gentle handling combined and precision bag making delivers quality, high production performance from a robust and user friendly machine.

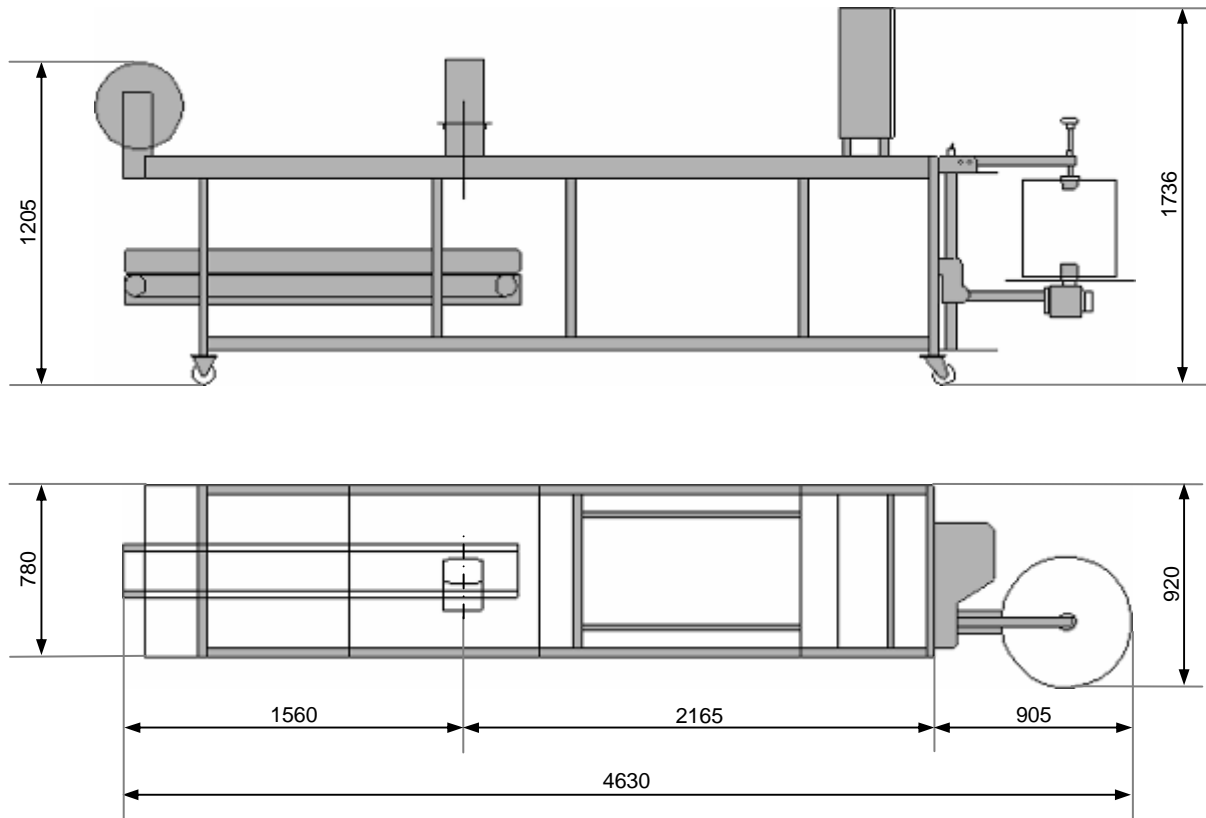

The PAPERflex bag of film/paper, laminate and PP, PE and PA etc. is manufactured directly in the machine, (sealing/cutting of sides, vent holes, handles and final sealing/closing of package.)

Film rolls of up to a capacity of 6000 bags are available. The speed of transport belt can steplessly be adjusted.

The Upmatic PAPERflex is mounted on casters and can easily be combined with all common weighing and closing equipment.

In our customer's interest, we reserve the right to introduce technical changes.
