

# Upmatic® 6002/4

Englisch

**Upmatic Typ 6002/4 = electronical counting machine for coarse products in the food and non-food industries.**

The Upmatic 6002/4 convinces by offering both precision and easy operation service.

A feed belt conveys the product to the vibrating plate before it moves via the four conveying channels directly into the counting buckets.

The control system of the machine is carried out by a high-output compact-PLC, integrated with an operating panel and a text display.

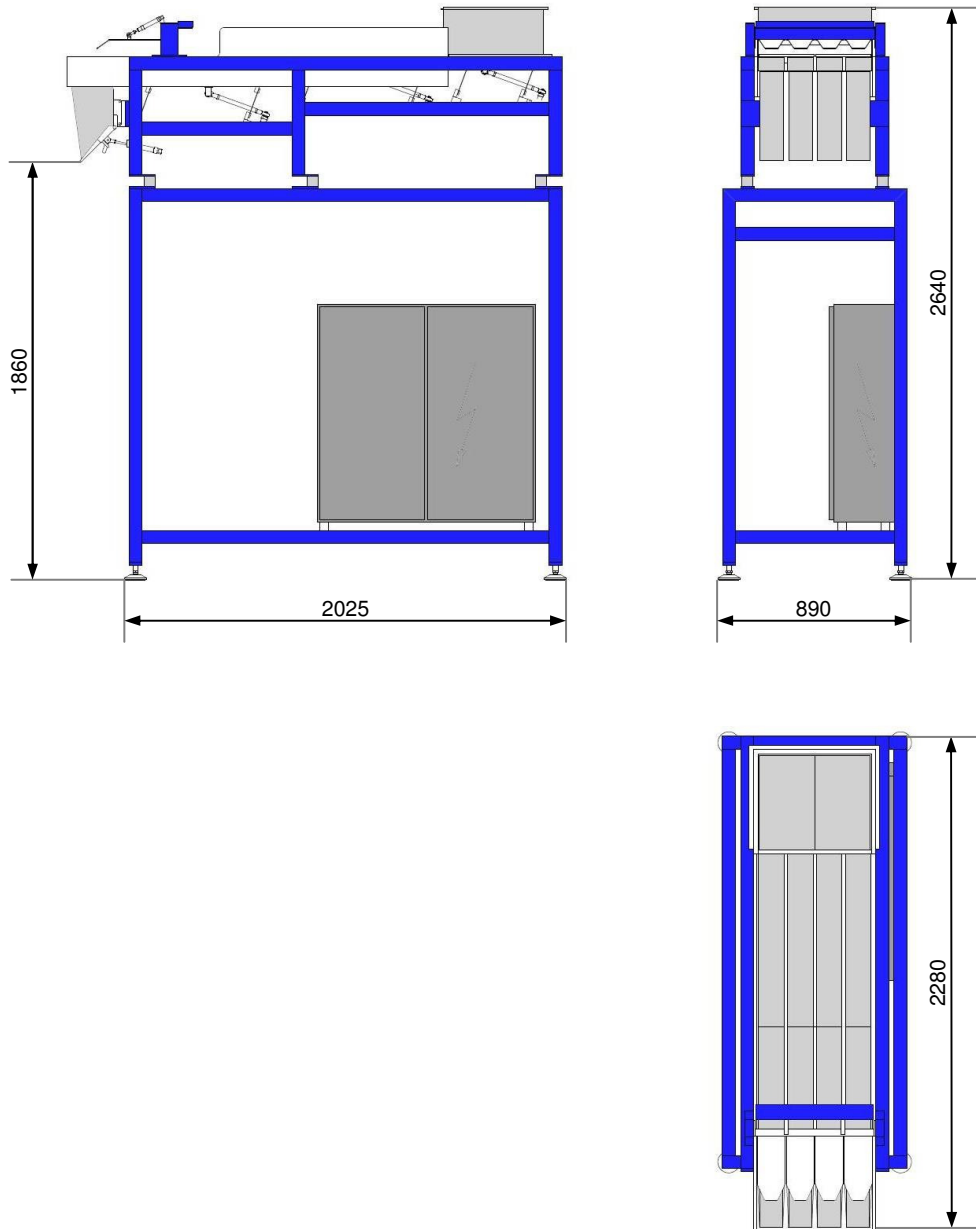

The Upmatic 6002/4 is very compact and works with an extreme reliability.

The counting machine Upmatic 6002/4 can be combined with all current filling and sealing machines. Upmann provides also adequate feeding belts and processing packaging machinery, so that complete counting- and packaging lines with a higher productive efficiency arise.

The measurements may change according to individual combination with filling and closing machines.

In the interest of our customers, we reserve the right to introduce technical changes.

# Upmatic® 6002/4

## Technical data:

- Capacity:  
Packages of 3 pieces: up to 60 cycles/min.
- Power supply: 230/400 V, 50 Hz
- Power consumption: 1,0 kW
- Air pressure: 6 bar
- Air consumption: 0,8 l / cycle

## Accessories:

- Feeding belts in individual sizes
- Full indicators for the feeding
- Chutes
- Collecting belts
- Service platforms

## Type of machines:

**Upmatic 6002/4:** Standard model; painted steel  
blue/silver hammer dimple.  
See illustration and explanatory text.

**Upmatic 6002/4E:** identically with the 6002/4  
but completely in stainless steel.
